Research Profile

Computing education and empirical software engineering researcher developing adoption-ready project-based learning and responsible applications of large language models. Co-developed 14 NSF-funded computing projects adopted at seven U.S. and Canadian universities and impacting thousands of students. Author or co-author of eleven peer-reviewed journal and conference papers, including four accepted 2026 papers.

Research Interests: Computing Education, Project-Based Learning, Empirical Software Engineering, Applied Large Language Models, AI-Assisted Computing Education

Education

Rochester Institute of Technology (RIT) <i>Ph.D. in Computing and Information Science</i>	Rochester, NY, USA <i>Expected Dec. 2026</i>
Clarkson University <i>M.S. in Electrical and Computer Engineering, Software Engineering GPA: 4.0/4.0</i>	Potsdam, NY, USA <i>May 2024</i>
Federal University of Technology, Minna (FUT Minna) <i>B.Tech. in Information Technology First Class Honors GPA: 4.58/5.0</i>	Minna, Nigeria <i>Nov. 2019</i>

Research Experience

Research Assistant

Jan. 2022 – Present

Rochester Institute of Technology & Clarkson University

Rochester, NY

- Co-developed and deployed 14 NSF-funded project-based learning projects in software engineering, artificial intelligence, and cybersecurity, adopted at seven U.S. and Canadian universities and impacting thousands of students.
- Developed FORAP, the expert-validated Framework for Organizing Reusable and Adaptable PjBL Projects, to support project adoption and adaptation across computing education contexts.
- Led and contributed to empirical studies of project design, student technical support, faculty adoption, higher-order thinking assessment, learner profiles, and student interaction data.
- Built retrieval-augmented assistants, fine-tuned models, and agentic workflows with API integrations for project scaffolding, student support, and rubric generation.
- Contributed to empirical software engineering studies of Android application logs, privacy disclosure, third-party library logs, continuous integration in software engineering education, and LLM-based bug report decomposition.
- Configured and maintained a 20-node Red Hat OpenHPC cluster with 640 CPU cores, Slurm, OpenMPI, and Prometheus/Grafana monitoring for research simulations.

Teaching and Mentoring

- **Teaching Assistant, NSF Project-Based Learning Initiatives** (2022–Present) – Supported software engineering, artificial intelligence, and cybersecurity courses across multiple institutions. Assisted students with project implementation, led laboratory sessions, and supported faculty integration of project modules.
- **Undergraduate Research Mentor, NSF Research Experiences for Undergraduates** (2024) – Mentored undergraduate researchers investigating the capability of large language models to attempt student software engineering projects.
- **Teaching Assistant, NSF CyberTraining on High-Performance Computing** (2024) – Assisted participants with hands-on high-performance computing concepts, tools, and exercises.
- **Mentor, Michael Taiwo Graduate Scholarships** (2023–Present) – Mentor undergraduate and early-career scholars on graduate applications, research opportunities, statement writing, research planning, and graduate funding.

Professional Software Engineering Experience

Software Engineer

Apr. 2021 – Dec. 2021

Legalfit LLC

Overland Park, KS

- Developed and optimized content-management features for law firm websites, helping pages meet Google Core Web Vitals thresholds for LCP, INP, and CLS. *Django, Vue.js, PostgreSQL, AWS.*
- Implemented six responsive frontend templates from Adobe XD designs. *Vue.js, Jinja, HTML, CSS, JavaScript.*

Software Engineer

Jun. 2020 – Apr. 2021

TTF Ltd.

Lagos, Nigeria

- Built a public registration platform for Lagos State that scaled to more than 200,000 daily users. *Laravel, PHP, MySQL.*
- Built an end-to-end HR management system adopted by Sterling Bank. *Java, Spring, MySQL.*
- Designed an online ordering system for Nuli Lounge with administrative order management. *Laravel, PHP, MySQL.*

Academic Service

- **Program Committee Member and Reviewer**, ACM Technical Symposium on Computer Science Education, 2027 – Reviewed five papers.
- **Program Committee Member and Reviewer**, ACM Virtual Global Computing Education Conference, 2026 – Reviewed three papers.
- **Program Committee Member and Reviewer**, ACM Technical Symposium on Computer Science Education, 2026 – Reviewed three papers.
- **Peer Reviewer**, IEEE Frontiers in Education Conference, 2026 – Reviewed three papers.
- **Peer Reviewer**, IEEE Frontiers in Education Conference, 2025 – Reviewed seven papers.
- **Peer Reviewer**, IEEE Frontiers in Education Conference, 2024 – Reviewed three papers.

Awards and Scholarships

- **Graduate Research Assistantship**, Rochester Institute of Technology and Clarkson University, 2022–2026 – Full doctoral funding in Computing and Information Science.
- **Best Presentation Award**, Clarkson University Research and Project Showcase, 2023.
- **Michael Taiwo Scholarship**, 2020 – Merit-based scholarship supporting graduate applications through financial support and mentorship.
- **Shell SPDC Scholarship**, 2014–2019 – Nigerian national undergraduate scholarship for high-achieving STEM students.

Technical Skills

Languages: Python, Java, C++, PHP, JavaScript, Bash, SQL, HTML/CSS

AI/ML & LLMs: PyTorch, Hugging Face Transformers, LangChain, LangGraph, RAG, PEFT, Prompt Engineering, LLM Agents, Embeddings

Backend, APIs & Web: Flask, Django, Spring Boot, Laravel, REST APIs, React, Vue, Tailwind, Jinja2

Cloud, Data & Tools: AWS, Google Cloud Platform, Docker, Git, CI/CD, Data Pipelines, CUDA, OpenMPI, Slurm, Red Hat OpenHPC, PostgreSQL, MySQL

Professional Memberships

- **Association for Computing Machinery (ACM)** – Professional member since 2024
- **ACM Special Interest Group on Computer Science Education (SIGCSE)** – Member since 2023
- **American Society for Engineering Education (ASEE)** – Member in DSAI and CIT divisions 2025
- **Institute of Electrical and Electronics Engineers (IEEE)** – Member since 2023
- **IEEE Young Professionals** – Active member since 2023
